

FULL TIME FACULTY POSITION IN PHYSIOTHERAPY

REF.: PHYSFT06/19

The Department of Life and Health Sciences of the University of Nicosia announces a full-time position in Physiotherapy.

Qualifications Required:

1. A doctoral degree (PhD) in Physiotherapy or a closely related academic field.
2. A BSc in Physiotherapy.
3. Ability to teach in English and Greek. Additional qualifications:
4. An MSc in Neurological or Musculoskeletal rehabilitation will be a bonus.

Job Description

The Physiotherapy Program offers degrees at all three levels (Bachelor, Master, and Doctorate). The current language of teaching is Greek, but it may be expanded to English.

Successful candidates are expected to

- teach theoretical and practical physiotherapy courses, at BSc, MSc and PhD level;
- present autonomy in developing and organizing the material to support students' learning;
- contribute to the management of existing and to the development of new courses;
- supervise graduate and postgraduate research projects;
- assess students' work & research projects and provide feedback;
- conduct independent, high quality, publishable research and attract research funding;
- participate in curriculum development and program administration;
- engage in scholarly and quality assurance activities within the program and the Department;
- contribute towards the development of links with organizations outside the University.

Salary will be based on qualifications and experience.

Deadline for applications: 16th of August 2019

Applications should include a cover letter with a clear statement of research interests, teaching and clinical experience, and a copy of the CV uploaded to the following link <http://vacancies.unic.ac.cy/>.
